

# David W. Hutton, Esq.

A media savvy networked attorney of the 21st Century who believes the legal industry has changed, grab your laptop and go!

The Story behind this Multi-jurisdictional International Attorney and Author who chose 'The Road Less Traveled.'

## *A Modern Day "Counselorberry Finn"*

How this Attorney rose from the ranks of a young unemployed attorney to practicing Law by the waters of The Amazon River, the basement of an exotic Turkish rug shop in Istanbul, a tent in the outskirts of Egypt and, ah yes, the Monkey Forest of Ubud, Indonesia.

David is a day-to-day practicing multi-jurisdictional attorney representing clients globally. He is a member of Scenic City Legal Group, located in Chattanooga, Tennessee. His expertise is complimented by extensive media experience, that includes news and talk shows. In the past he has prosecuted murders internationally, assisted large multinational corporations build effective legal foundations, worked with foreign governments, and is a graduate of The Hague Académie de Droit International de La Haye, Netherlands.

## Multi-Jurisdictional International Attorney

In addition to being the owner of International Legal Consultants David is a former Chief Prosecutor for The Northern Mariana Islands, member of Asian Organized Crime Task Force and Chief General Counsel for Cabela's. He has been the subject of feature stories and been interviewed by the media many times:

- Two Co-Anchor guest appearances on *Court TV*.
- "Cabela's GC Starts from Scratch" *The National Law Journal*, 4/02.
- "NMI's chief criminal attorney, David Hutton" *Saipan Tribune*, 6/04.
- "High profile cold case murder solved" *Saipan Tribune*, 4/05.

Although a work of fiction, Amicus Tremors raises interesting real life unanswered questions in this tantalizing tale of a young man ensnared into the world of foreign espionage, intelligence and intrigue. Does the intelligence community's right hand know what the left hand is doing?

- *Why are there virtually no comments made regarding assassinations of internationally influential people who have had a direct impact on American lives such as Anwar Sadat, Philippine Presidential Hopeful Benigno Aquino, and former Director of the CIA William Colby?*
- *Why did the US Government seize the papers and private documents regarding the experiments of Nikola Tesla, a practically unknown yet undoubtedly one of the most brilliant inventors of all time?*
- *What happened to the scientific documents of the inhumane human experiments committed by the Nazis in WWII? Were they the first to discover the DNA element and successfully alter the makeup of humans?*

These questions are hypothetically answered in this fictional novel about David Thibeaux; a small town boy raised in a farming community who dreams of going to law school in sunny Southern California. The plan doesn't turn out that way when he finds himself as a pawn on a real life chess table of intelligence, murder and activities behind the curtains of American politics and counter intelligence. Amicus Tremors was inspired by actual unanswered political assassinations. Go to [www.amicus-tremors.com](http://www.amicus-tremors.com)
